

NON COVERED SERVICES PER INSURANCE

PATIENT NAME: _____

DATE OF SERVICE: _____

Your doctor has ordered a CT examination of your heart and/or chest. The examination of the chest structures includes the lungs, aorta and pulmonary arteries and is usually covered by Medicare or your insurance (CTA of the chest w & wo contrast- 71275). Advanced authorization may be required by some insurance carriers that we can assist in obtaining. **The CT examination of your heart and coronary arteries (procedure codes 0145T, 0146T, 0147T, 0148T, 0149T, 0150T, 0151T) is a separate exam requiring significant additional resources including supervision by a cardiologist.** Though FDA approved and recognized by Medicare and many insurance companies as an approved exam, it is not reimbursed by them.

If a CT examination of the heart and coronary arteries is ordered in addition to a CTA of the chest, you will be responsible for only an additional \$ 500.00 at the time of service to cover this additional exam.. If the examination of the heart and coronary arteries is ordered as a stand alone procedure, a fee of \$1,750 will be collected at the time of service. **This \$ 500.00 is not toward your deductible and your co-insurance/co-payment.**

If you wish to have ct coronary angiography, please sign here acknowledging your understanding the coverage issues above,
